(850) 922-8842 FAX (850) 488-2740

The Operational Development and Information Office (ODI) directs and coordinates computer development within the Division. ODI staff works with DBPR's Bureau of Technology to maintain technological support for division employees and develop goals for computer enhancements. ODI has been instrumental in developing automated systems to replace outdated manual processes. Future projects include development of coordinated department/division licensing, inspection and complaints tracking systems; enhancement of the Division's presence on the Department's Intranet and the Internet at: www.hospitalityeducation.org; creation of a data warehouse of licensing and inspection data accessible through the Intranet for easier retrieval of statistical information; development of web-based applications to track consumer complaints, inspector training and enforcement; incorporation of optical readers for recording inspection data; integration of field technology; and widespread use of imaging technologies for document storage and retrieval.

ODI also maintains statistical information and generates reports for the Division. ODI produces and coordinates distribution of most of the Division's forms, brochures, newsletters and publications. In addition, ODI responds to public requests for public records, information and statistics.

Located in the new University Center at Florida State University, the Hospitality Education Program office and resource center contains over 6,000 training materials and over 60 periodicals. HEP distributed more than 250,000 educational materials during FY 98/99.

During the past year, the Hospitality Education Program trained hospitality industry employees through free workshops offered in communities throughout the state. HEP workshops are offered in several different languages including Mandarin Chinese, Creole and Spanish. Future projects include: development of several more training seminars ranging from Air Quality for Public Lodging to "Street" HACCP, Advanced HACCP and Personal Hygiene for Food Handlers.

The program enforces the American Society of Mechanical Engineers' Safety Code for Elevators and Escalators; portions of the National Electrical Code; State Fire Marshal's Uniform Fire Safety Standards; National Handicapped Requirements; Chapter 399, Florida Statutes; and Chapter 61C-5, Florida Administrative Code (FAC).

Licensing of elevators, plan review for proposed elevators, issuance of construction and alteration permits, registration of elevator companies, and issuance of Certificates of Competency are handled by Bureau staff. Annual service maintenance contract status verification and renewals of Certificates of Operation are coordinated with the Bureau of Licensure. The office also manages contracts with the cities of Miami, Miami Beach and Miami-Dade County and Reedy Creek Improvement District to ensure that inspections adhere to state standards. The Bureau of Elevator Safety is planning to establish an educational program for riders in the coming years.

The Bureau conducted 18,279 inspections during FY 98/99. The growth rate of elevator licenses is increasing significantly.

During the past Fiscal Year, the Bureau of Licensure processed licenses and license renewals for 81,469 public lodging and food service establishments and 35,868 elevator accounts. In addition, this Bureau provides licensing information, data management and data entry support to the Division.

Recently, this Bureau has been responsible for Y2K remediation for the Division and a data warehouse startup project. The Bureau is exploring new technological advancements including on-line renewals.

BUREAU OF SANITATION AND SAFETY INSPECTIONS

Larry Schwartz, Bureau Chief
(850) 488-9263 FAX (850) 488-2740

During FY 98/99 the Bureau of Sanitation and Safety Inspections conducted more than 200,000 inspections of food service and lodging establishments to ensure the health and safety of Florida's residents and visitors. The Bureau has seven district offices that are located in Miami, Ft. Lauderdale, Ft. Myers, Winter Park, Tampa, Jacksonville, and Panama City Beach.

These inspections include:

- routine inspections;
- opening inspections for new establishments and changes of ownership;
- call-back inspections on establishments having critical violations to correct within a specified time;
- temporary event inspections;
- health inspections for alcoholic beverage license applicants;
- complaint investigations;
- assistance to the Department of Health with foodborne illness investigations;
- resolution of landlord/tenant disputes regarding security deposits; and
- other service inspections.

Further, the Bureau enforces licensee compliance with the Florida Clean Indoor Air Act and long distance telephone carrier access and posting of charges for the Florida Public Service Commission.

Administrators and office staff in each of the seven district offices are responsible for coordinating daily activities and scheduling inspections. Administrative enforcement cases are initiated in the Districts to ensure compliance with the law. The Division is authorized by law to assess fines up to \$1,000 per offense per day and to suspend or revoke an operator's license for violations of law or rule.

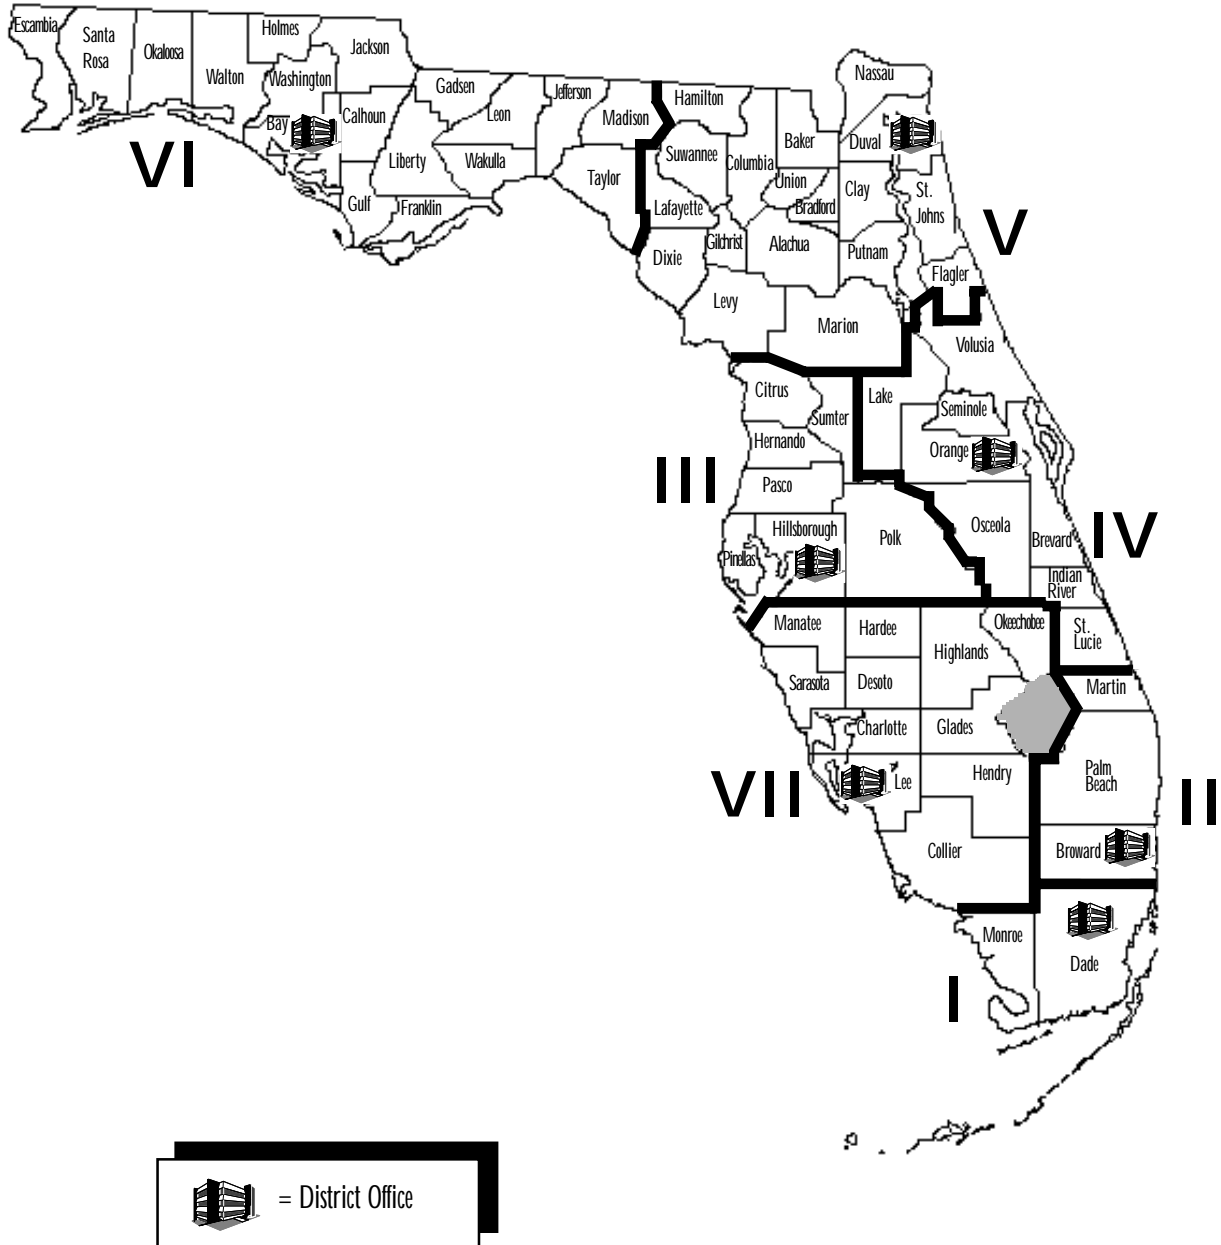

OFFICE OF COMPLIANCE

Geoff Luebkekmann, Administrator
(850) 410-2491 FAX (850) 488-2740

The Office of Compliance manages the administrative enforcement program for the Division. In addition, this office coordinates indexing of enforcement cases and works with department legal staff to process emergency orders and formal hearings with the Division of Administrative Hearings, within the Department of Management Services.

In FY 98/99, the enforcement program was retooled to emphasize compliance rather than enforcement. The Program includes: an informal, less adversarial conference format ensuring telephone conferences are conducted in a shorter period of time, allowing better preservation of evidence and resulting in a greater number of settlements; and a statewide computer system to track cases closely once they enter the enforcement system at the district level.
