That if the association has less than 150 units, it may not be in violation of s. 718.111(12)(g), Florida Statutes?

That the association may make records available through an application that can be downloaded on a mobile device as an alternate option to posting records on a website?

That the association may still allow for access of official records not listed in s. 718.111(12)(g), Florida Statutes, in paper format?

That the failure of the association to post information required pursuant to s. 718.111(12)(g), Florida Statutes, is not in and of itself sufficient to invalidate an action or decision of the association's board or committees?
