AD HOC COMMITTEE – Frank Cawthon

Mr. Cawthon gave the following report:

Mr. Cawthon opened the discussion concerning the creation of a specialty Stucco/Plastering license. The Board opened it up for public comment. After discussion, the Kane indicated that he thought it would be too difficult to get this type of license passed because everything he has heard is that there is significant opposition to the license. Ms. Wood stated that she believes it to be prudent to continue with the creation of the license. Mr. Cawthon stated that he also does not believe the industry would support the creation of the license and that the cost of development (examination, etc) would most likely not be worth the creation of the license.

After discussion the Board decided that no action would be taken at the moment.

OLD BUSINESS

Removal of Board materials from laptops.

NEW BUSINESS

Discussion took place regarding the continuing education requirements for license holders. After additional discussion, a motion was made and passed unanimously to open Rule 61G4-18.001, Florida Administrative Code, to add a requirement that certain Division I contractors take at least 1 hour of continuing education on cementitious cladding every renewal cycle.

Additional discussion took place regarding HB735 and how it is affecting registered contractors. Could choose to grandfather registered licenses holders.

With no further business the meeting was adjourned at 10:24am
