REVIEW OF THE MINUTES

- FINAL ACTION – January 2007

The board voted unanimously to approve these minutes.

EXECUTIVE DIRECTOR'S REPORT – G.W. HARRELL

Mr. Harrell gave the following report:

Mr. Harrell distributed the financial report for the Recovery Fund and the total of the operating account. Mr. Harrell stated that if anyone has any concerns about the financial report to contact him.

Mr. Harrell also stated that he had correspondence from a representative from the Roofing & Sheet Metal Association in regards to the new continuing education requirements. Mr. Harrell stated he met with the Construction Coalition and that the Coalition had a problem with the 3 hour laws and rules continuing education requirement, and they also expressed concerns about the financially responsibility officer bond requirements. Mr. Harrell stated the Coalition is not aware of the decisions the board makes, and Mr. Harrell will work on better communication with them. Mr. Harrell mentioned that the Department has legislative package on the floor, which includes a one hour limitation on the laws and rules requirements instead of the proposed three.

Mr. Harrell brought up Senate Bill 404 which requires criminal history checks for everyone who submits an application and provisions for electronic fingerprinting were included. It also gives the board the option of imposing net worth requirements on contractors; \$20,000 for Division I and \$10,000 for Division II. Another Senate Bill, Bill 440, gives the board the option of adding an additional board member for mold remediation contractors which would fall under the Division II contractors.

A motion was made by Mr. Engelmeier to change the rule requiring only one hour of laws & rules instead of three. Mr. Kalmanson suggested the motion be amended to make that one hour be live classroom instruction as opposed to an internet class. This motion died. Mr. Engelmeier made the motion again to reduce the amount of required continuing education for laws and rules from three hours to one hour. The motion was defeated again. Ms. Watts made a motion to make the laws and rules requirement three hours for the next two renewal cycle until the 2010 renewal cycle at which point a laws and rules exam will be implemented for initial licensure. This motion was passed. Another motion was made that the board request from the legislature a hard line on civil rights being restored for applicants. The motion was passed.

Ms. Kane made another motion that the endorsement application no longer be allowed, which was seconded. The motion was passed. Ms. Bailey asked if there is a statute or rule that specifically states Florida does not accept reciprocity from any other states.

Mr. Harrell also mentioned that there is a bill in the House proposed by the Construction Coalition that would give them the jurisdiction to fine and discipline contractors for violations such as abandonment, etc. The board expressed displeasure with this bill.

Mr. Harrell then brought up an issue that the General Counsel's office asked for board advice on a specific statute on unlicensed activity, and the provision that if an unlicensed contractor is found to have committed unlicensed activity, but within one year of the violation obtains

licensure, the fine is reduced by half. The board made the recommendation to the Department has the right to reduce the fine by 1/10th of 1%, and the motion was voted on and passed.

With nothing further to report the board voted unanimously approve this report.
