

Definitions

Inspection Type

Initial – An inspection completed upon initial licensure or change of ownership.

Routine – A scheduled inspection, unannounced to the business. An inspector will conduct a complete inspection covering all items in the regulations for compliance.

Enforcement – An inspection initiated as a result of a complaint or request of the regulatory board.

Out of Business – An establishment that is no longer in business as a result of a change of ownership, change of name, change of location, or closing of the business.

Inspection Result

Pass – Inspection requirements were met which did not warrant a follow-up visit. Establishment will be inspected during the next routine interval.

Fail - Inspection requirements were not met. Requires the inspector to return and conduct a complete inspection of the establishment.

Unknown - All inspection requirements were not met. Requires the inspector to return or licensee submit documentation of corrective action for violations found to ensure establishment has come into compliance.
